PROFESSIONAL SUMMARY

Versatile IT Specialist and Full-Stack Developer with a strong foundation in systems administration, network configuration, and technical support. Experienced in designing scalable web applications using Next.js, Vue.js, Node.js, and SQL. Proven track record of delivering end-to-end enterprise solutions, including Full-Stack ERP platforms, Asset Management tools, and Web-Based POS systems. Adept at bridging hardware maintenance with custom software development to streamline business operations.

TECHNICAL SKILLS

Networking & Infrastructure: Network Configuration, IP Addressing, VLAN, PPPOE, Bandwidth Management, Wireless P2P/PTMP, Mikrotik and Ubiquiti systems.

Web Development: Next.js, Vue.js, Node.js, PHP, Python, RESTful APIs.

Databases & Tools: SQL Database Design, MySQL, Directus (Headless CMS), Docker, Git.

IT Support & Administration: System Troubleshooting, Hardware Diagnostics, System Maintenance.

EDUCATION AND QUALIFICATIONS

Bachelor of Science in Information Technology

STI Colleges Dagupan, Pangasinan

2021 – 2025

Mikrotik & Ubiquiti Technical Training

Wireless, P2P, PTMP, Hotspot, PPPOE, VLAN, Bandwidth Management

FLASHSTART DNS Hands-On Session

Mikrotik and Ubiquiti Enthusiast Philippines & Hypernet – Internet and Business Solutions, Inc.

August 11–12, 2018

KEY PROJECTS & PORTFOLIO (As a Developer)

Full-Stack ERP System: Architected an Enterprise Resource Planning system managing Sales, Inventory, and HR modules using Next.js and MySQL.

Multi-Modal Attendance System: Designed a web-based system integrating Biometric Fingerprint and RFID hardware via a custom Node.js "Hardware Bridge".

Asset & Equipment Management System: Built a tracking system for company assets using Node.js and SQL to ensure inventory accountability.

Web-Based POS & Business Management Dashboard: Engineered a comprehensive enterprise platform (using Next.js and Node.js) featuring a Point of Sale (POS) interface, alongside robust backend modules. Architected systems for Catalog & Inventory management, Administration/Content control, and a complete Finance & Analytics suite

handling expense tracking, salary distribution, and debt management.

WORK EXPERIENCE

MIS/IT Specialist - STI College

Dagupan City, Pangasinan

January 2026 – June 2026

Legacy System Restoration: Successfully rehabilitated and optimized the college Records Management System (RMS), which had been dormant since 2021, ensuring the recovery and accessibility of vital institutional data.

Computer Lab Administration: Manage and maintain student computer laboratories, ensuring all workstations are optimized for academic software, stable connectivity, and security.

Student Account Management: Administer and manage student accounts within Microsoft Entra ID, ensuring secure and reliable access to the STI eLMS platform.

Employee Workstation Management: Oversee the deployment and technical support for administrative PCs, ensuring faculty and staff have reliable access to internal tools and resources.

Network & Infrastructure: Administer campus-wide network configurations using Mikrotik and Ubiquiti systems to manage bandwidth and connectivity for both students and employees.

System Maintenance: Perform regular hardware diagnostics and software updates to minimize downtime across the campus IT environment.

Full-Stack Developer - Vertex Technologies Corporation

Gonzales St. Bonuan Boquig, Dagupan City Pangasinan

June 2025 – December 2025

Design and maintain scalable web applications using Next.js and Vue.js, ensuring high performance and responsiveness.

Develop and optimize server-side logic and RESTful APIs using Node.js and PHP to support core business functions.

Manage and architect complex SQL database schemas, implementing indexing and normalization to improve query efficiency.

Collaborate with cross-functional teams under the direction of the Project Manager to deliver end-to-end software solutions.

Utilize Docker for containerization and Git for version control within an Agile/Scrum development environment.

IT Intern (OJT) - Outsoar Ph

San Carlos City, Pangasinan

February 2025 – May 2025

Managed the internal 'Playbook' knowledge base using MediaWiki, ensuring accurate technical documentation for the operations team.

Collaborated with management to document and streamline internal workflows. Applied web development skills to maintain and update internal documentation tools.

Technical Support/Computer Shop Attendant | CyberHouse Computer Shop

Lingayen, Pangasinan

January 2018 – January 2020

Conducted hardware and software diagnostics, repairs, and optimizations for diverse client needs.

Provided end-user technical support, resolving OS issues and peripheral connectivity.
Maintained shop systems to ensure 100% operational uptime.

ACHIEVEMENTS

Mikrotik Training Certificate (Incl. Wireless, P2P, PTMP, Hotspot, PPPOE, VLAN, Bandwidth Management) & Ubiquiti PTP/PTMP Technical Session with FLASHSTART DNS.
